LEXINGTON, KENTUCKY, FRIDAY, APRIL 15, 1932

### K. E. A. CONVENES FOR SIXTY-FIRST ANNUAL MEETING

Kentucky Education Association Convention Opens in Louisville

COLLEGE CHORUSES PRESENT PROGRAMS

Several University Professors Are Listed Among Speakers

The 61st annual Kentucky Educational Association convention opened officially Wednesday night, April 13, in Louisville with hundreds of educators from the state in attendance, including many university people. A musical program was presented by the Foster Choral club, Morenead State Teachers' College.

Dr. Frank L. Mcvey, president of the university, was among the speakers at the first pusiness session Thursday morning, Dr. J. R. Brad ner, muduesporo, president, p.esiaed and made the opening address Dr. William Cooper spoke on "Some Implications of Our age for Equea tion," Miss Mattle E. Inomas, rural school supervisor, South Carolina, spoke on Guiding Element in the Potential Period of America's Most Dynamic Development," and President Mcvey on "Progress of Public Equcation for Kentucky."

Tnursday atternoon special group meetings were held. Prof. Leo M. Chamberlain spoke to the department of coneges and normal schools his subject was "higher Education in Kentucky in the Light of Current Economic Conditions," Thursday night the university glee clubs gave "Tannnauser," before the generai assembly. Inursday evening the banquet of the university was held in the Brown hotel, with President Movey presiding. Speakers on the program were James H. Richmond, superintendent of public instruction. Franktort, and Miss Florence Haie, president of National Education association. Music was turnished by the university men's glee club. Today a general session will be

held in the morning, and special group meetings in the afternoon.
This afternoon Dean Taylor, College of Education, of the university will speak before the conference of science teachers on "What the Beginning Teacher Should Know," and before the department of city superintendents on "Gains and Loses in Education in Kentucky." Prot. J. S. Mitchell, professor of mathematics at University High school, will address the conference of mathematics teachers. His subject will be "Recent Changes in the Teaching of Mathematics." Miss Ethel Parker, College of Agriculture will speak before the home economics group on "Home Economics Edu-

Dean Edward Wiest, college of commerce, will preside over the meeting of the commercial education section in the Tyler hotel. Prof A. J. Lawrence will give the report of the Research Committee.

# OPENING HOUSE

Strollers' Comedy "Good News" Will Play at Wood-Kentucky Theater

"Due to an unreasonable conflict with local labor unions, we have been forced to forego plans for hold-ing our play at the Kentucky theatre, and have decided definitely to use the Woodland auditorium for the production of "Good News," was the statement made by Hugh Adcock, director of Strollers in regard to the production of the spring play. However, Director Adcock express

ed gratification at the fact that at the Woodland auditorium will be posssible to have stage rehearsals with all the stage sets of the play, a week before the initial showing of the comedy. He said, "I am encouraged over the changes: This would have been impossible at any other playhouse which could have been obtained."

The first complete rehearsal the play was held last night at the Fraining School auditorium. All choruses were used, and the music of the Blue and White orchestra was added for the first time to the regular rehearsal. The rehearsal pro-ceeded with comparative smoothness and it was decided that the date for the presentation of the prochanged. 'The boys' and girls' choruses each have four routines, which were originated by Georgianna Weedon, the dance director.

Last Wednesday a meeting of the for the sale of tickets, and it was decided that they would be put on sale by the early part of next week. Besides being handled in each sorority and fraternity house by appointed representatives, they will tensive collection of the department also be on sale at the Dunn Drug of entomology at the experiment have secured in foreign countries. store on the corner of Maxwell and station. Dr. Harrison Garman start-

New additions to the staff are the trio, which is composed of Jimmie Lyons, Mickey McGuire, and Bill Conley; and Lawrence Alexander, who is to take the part of the gate-who is to take the part of the gate-who is to take the part of the gate-who is to take the part of the gate-group scenes.

ed this collection many years ago and it has been gradually built up. It now contains larvae and adult forms of most of the native insects of this country, butterflies and moths from Brazil, the Phillipines, and South America.

Miss Pettit's contribution, when mounted, will make a most attractive exhibit and will be of interest to all students of the university and visitors to the department of ento-group scenes.

A prize of \$10 has been offered by Sir Herbert Ames to the journalism student who turns in the best written report of his address before the Central Kentucky Women's Club which will be given at 3 o'clock Saturday afternoon in the ball room of the Lafayette hotel. Sir Ames is giving a series of addresses before the International Relations clubs of the university and Transyl-

Kernel will print the pictures of all nominees for May Queen who will bring or send a cut to the Ker-

Arrangements for the May Day program are being made by Gilber Kingsbury and Miss Nell Dishman who are also in charge of the preparation of the May Day bookiet which will be published by Suky.

As in recent years, a May Day parade will be held, and cups will be presented to the fraternity and sorority which prepare the winning floats. The basis of award for the sorority will be beauty of the float while the fraternity cup will be presented for originality. Ed Milli ken, member of SuKy, will have charge of arrangements for

Features of the May Day program, in addition to the crowning of the Queen and the festivities of the court, will be the pledging service of Mortar Board, senior women's honorary fraternity, and the presentation of the Sullivan medallions to the outstanding man student, woman student, and citizen.

#### Faculty Loan Fund Reaches New Mark

Total of \$40,900 is Attained By University Credit Union

With the original goal of \$40,000 reached and details of the administration of the university Credit union brought to completion, the first loans to the faculty will be made late today, according to an announcement yesterday by William H .Courtney, president of the First National bank.

Late yesterday the fund received contributions which swelled the total to \$40,900. The members of the organization of Lexington business men have set \$10,000 as their next goal, and it is expected that this will be raised some time next week. James F. McFarland, vice president of the First National bank, will be the trustee of the loan fund, ccording to Mr. Courtney.

The committee composed of D. H. Peak, university business agent, Ezra L. Gillis, registrar, and C. R. Melcher, dean of men, are receiv-ing applications and will thoroughly survey each case before making a

The fund will enable members of the faculty to meet current obli-gations despite the inability of the university to pay their salaries in full. The money will be loaned to the faculty at four per cent interest over a period of 15 months. The Board of Commerce committee,

headed by Fred Bryant, will continue to solicit additional pledges until the new goal of \$10,000 is reached

#### TO ATTEND MEETING

The junior prom is an annual event on the Kentucky campus and the crowning of the Prom Queen is a feature of the affair. Election of the queen will be held on Thursday. April 21, and the coronation ceremonies will be held the following

#### U. K. and Louisville Will Debate by Radio

A radio debate between the uniersity and the University of Louisville will be radiocast Monday, April 18, from 12:59 to 1:50 o'clock, when each team will deliver two constructive speeches and a rebuttal from its respective studio. Clyde Reeves and Phil Ardery will uphold the negative side for the university on the question, "Resolved: That the Democratic Party Should be Returned to Power in 1932."

Each debating team will listen to the arguments advanced by its opponent, by means of a loud speaker in the studio, and will be prepared to answer the arguments directly An extensive system of switching has been devised for this program. The radio audience will be asked to send in their votes on the merits of the debaters at the conclusion the broadcast.

#### Prof. J. McHargue To Address Society

J. S. McHargue, head of the chemistry department of the experiment station, will be the speaker at the final meeting this year of the

"A New Qualitative Method for the Determination of Boron," will be the subject which Doctor McHargue will discuss at this time.

The American Chemical society, composed of approximately 45 cheming the scholastic year.

#### FACULTY LOAN FUND

In a few more days, a fund of \$40,000 will be placed at the disposal of those members of the university whether The Kernel should side faculty who are in greatest need of with one or the other: all are befinancial assistance. Cognizant of side the point. The immediate conthe real distress caused in many cern of the student body should be cases by the recent cuts and delays the effect that publicity relative to of salary checks at the university, student attitude has on the unithe business men of Lexington have versity alumni and citizens of Bell cooperated in this method of dem- and Harlan counties. onstrating to the university their interest and good will.

Business men, as well as city authorities, recognize that the college professor is the model citizen. The value of student trade, especially in a business way, is not to be underestimated, but at best it is a more or less transient thing, existing only during the time that school is in session and having little effect on the actual civic affairs of the city. The professor, on the other hand, is a year-round resident. He lives in town, often owns his own home, and his money is spent with local merchants. He and his wife take part in civic affairs and contribute to civic enterprises. He often participates in church affairs and his children attend Lexington schools. His very profession guarantees propriety of conduct, as well as a high type of judgment in administration of responsibilities given him. In short, the university faculty forms a distinct and valuable factor in the life of Lexington, socially as well as financially. What concerns the city concerns them, and similarly, what concerns them should be the concern of the city.

Therefore, it is very fitting that the business men of the city, recog nizing this, should take steps to make the faculty's temporarily difficult situation easier. Their immediate endorsement of a \$40,000 loan fund, amounts payable in 15 months, by which time the university promises full payment, shows Yet Available" - Kernel headline. that they recognize the value of the And the Jester got there just two professors' patronage, and are willing to cooperate with and assist them in every way possible. It is an action to be applauded and re-

its existence.

#### LIBERAL COMMENT

Following the recent move of the Liberal club in announcing their advocation of foreign student investigation in the coal mining areas of southeastern Kentucky and the subsequent action of the Men's Student council in denouncing the club's attitude, numerous communications elative to the matter have been received by The Kernel. At the same time, the nature of the letters -airing personal prejudices and convictions often in no way connected with the real discussion-indicate a sad lack of student interest in the true and ultimate situation-that confronting the univer-

Whether either the action of the Liberal club or the action of the council had any conflicting points of campus political interests; whether the actions were justified

The attitude of the Liberal club is not the general attitude of the student body. Members of the club confess that. Nevertheless, citizens upon whose support the university relies in the affected districts do not understand that. Publication of statements sympathizing with and commending the courses of foreign students in the Kentucky counties adversely affects the desirable element as well as the cleverly quoted 'desirable element."

Until the majority of the students of the university have accepted the attitude of the Liberal club be more careful with its published statements. The club should retain its liberality in its dealings with matters vitally affecting the university as well as its liberality with

#### Jest Among Us

The Jester tosses his typewriter into the Liberal club fiasco by giving them proper publicity and an intriguing crack:

#### Communications

INTELLIGENTLY AND DISIN-TERESTEDLY SPEAKING To The Editor:

the resolution recently published by the Men's Student council condemning the Liberal Club can only be viewed as a bigoted example of intolerance promuigated by the seilish interest of persons wishing to in crease their popularity with the so-called "respectable element in southeastern Kentucky.

The Liberal Club may not be representative of the student body, it does not pretend to be, but my observation is that intelligent disinterested persons consider the action of the council as being of no credit to an institution of learning.

The mere fact that the Liberal Club does not have its membership among fraternity men or that it does not become involved in campus political corruption is no proof that it does not exist. I understand that the club has been inactive. But if there are a few students who wish to revive free thought and who wish to assure students from other states that there is at the University of Kentucky a group with a sympathic interest, then I see no reason why they should not address themselves as the Liberal Club.

The Indianapolis Star of March 9, carried a note of the council's action. A Butler University student in discussing it said. "I perceive that your council is like our own, it tries to be the whole show." The University and the Student Council indeed, received some cheap and ignoble publicity. We expect to see faces beaming with smiles of satisfaction.

In view of the fact that persons are being accused of courtpublicity I trust that you will pardon me for signing,
—A STUDENT

WHO, ME? Editor Kentucky Kernel,

I have just read the redundant, erudite, verbose bombast of Mr. Littlefield, and the quiet, tolerating half column which Mr. Weaver takes to tell the student body of the university that the Liberal club does not want publicity. It is, perhaps, more fitting to

take each one of these communication separately, and decide what each of them contains in the way of constructive criticism. It appears, after reading Littlefield's blurb that he (Mr. Littlefield) is not at all interested in the Liberal club and their troubles, but is taking advantage of that to work off a little personal animosity against Clarence Yeager. This may be justified (the animosity) but I hardly think that the Kernel should be used as the medium. We (the student body) are not interested in J. Wesley's personal likes and dislikes. That disposes of Mr. Littlefield.

As for Mr. Weaver's dissertation, it seems pitifully inadequate. (This may be my own opinion since I read it after I waded through the abstruse mental meanderings of Mr. Lit-tlefield.) He (Mr. Weaver) insists that the Liberal club should be recognized as such, and I do not believe that any of the men women of the university will disagree with him on that point. But I do believe that they will take exception to his calling that organization that name. As a Liberal club it should be willing to accept the viewpoints of others with as much liberality of feeling as it wishes others to accept its own. But does their liberality go that far? It is to be doubted grave-

I wish to differ with Mr. Weaver on one or two other "That any one should covet the amount of unfavorable publicity heaped on the club by the Kentucky Press seems incomprehensible," he insists. I doubt, and justly, I that it was more than any of the club expected. And expecting it, knowing that it would come, and going ahead anyway, seems (per se) to con-

#### **Light Bulbs Eaten** By Two Freshmen

Two University of North Carolina reshmen have recently discovered a handy and inexpensive hors d'oeuvre and which is threatening to surpass ping pong as an indoor pastime. These boys, who apparently possess cast iron digestive systems, have taken up the art of eating broken electric light bulbs and discarded razor blades.

For some time the disappearance of electric light bulbs from the dormitory bathrooms had baffled university authorities. When it was discovered that two glass hungry individuals were in their midst, however, a plausible explanation presented itself. It is thought that they can be relied upon as possible means of getting rid of old razor blades also.

These apparently "iron have demonstrated the art of glass and razor-blade eating to incredulous individuals with the sole proviso that the latter furnish the materials to be consumed.

When asked how it was done, one stated that thorough chewing of the glass was all that is necessary to avoid harmful effects. knowing how," they said.

One of the experts explained how the particular type of glass of which electric light bulbs are made has smooth edges, and if properly masticated, will not prove dangerous. Old-style Gillette razor blades can is a picture that is really "different"—"The Silver Lining." It deese.

VIRGINIA YOUNG

This is a first of a series of photographs of the nominees for the po-sition of May Queen. A picture of one of the nominees will be pub-lished in each issue of the Kernel until the election on April 22.

Virginia Young is president of Kappa Delta sorority and is regimental sponsor of the R. O. T. C. unit. She was formerly a company and battalion sponsor. been selected by George White, nationally known producer of musical comedies as one of the outstanding beauties on the university campus, and as such will have her picture in the beauty section of the Kentuckian, university year book.

RUTH WEHLE

Ruth Wehle, Lexington, member of Alpha Gamma Delta sorority and is a junior in the College of Arts and Sciences. She is vice-president of Phi Beta, dramatic sorority and a member of Strollers and Guignol, university dramatic societies. Last year Miss Wehle was initiated into Cwens, of the Craig family and were prehonorary sophomore society. Her picture was placed in the beauty chapter of Daughters of the Ameri-section of the 1931 Kentuckian. In can Revolution by Miss Katherine the last May day celebration she was an attendant to the Queen.

#### Sense of Humor Is Indispensable For Ideal Male

Good looks do not make the man. verified at the Florida State College may of the land, dated 1783. for Women, when the girls were questioned about their ideal man.

The ideal man is neither a Valentino nor a Will Rogers. He must be tall, have dark eyes and hair, look intelligent, have a sense of humor, and be at least an average athlete. Out of fifty girls questioned only five admitted that he should would of course look intelligent.

Most of the girls asked for average intelligence and an interested and interesting appearance. The must be able to say that a handsome man returned the book with the comment, "It's a good book, but I can do better now." This we learn from the Tomahawk. be handsome before all else. One interesting appearance. The man must be able to carry on a conversation on almost any subject and

must be able to listen. The man who possesses a developed sense of humor is indeed for-

tunate. One girl states: "I am willing to do without looks money, brains and anything else, but the man I marry must have a sense of humor. Think how terrible it would be after the baby cried all day, you burned the dinner, and the laundry man refused to leave the clean sheets until the bill was paid, if your husband couldn't laugh about it. I value a sense of humor above all else because neither my

father nor my two brothers have

Athletic men are favored, but one young lady says, "I can't do any-thing but chase tennis balls myself and I'm no good at all in a strenuous game, so why should I expect more of anyone else than I do of myself. Of course I do, and I al-ways prefer the athletes, but I real-

ly don't mind the others." Consideration is one of the things ve shall look for," said one girl acting as a spokesman, "Women like who are considerate of them. It is all right in high school days to go out on a date and expect to catch the car as it is slowed up at your gate, and to stumble across he streets by yourself, but when it omes to a show down, women like nen who think of all the little thing. Just pure old consideration yould win me quicker than any ning else."
Girls also desire an understand-

ng mind; but the one greatest gift is probably a lasting friendship. They seem to feel that in a true friend you have the ideal man no matter what he looks like or how

#### Artist Says Ugliest Girls Are in College

James Montgomery Flagg, the rust, in a letter to Dr. Burges omnson, an ector of public relations of Syracuse University, accepting ne job of picking the six prettiest gais of the jumor class, poked fun the custom.

"Sure-in pick out the prettiest gais—if any—or if six," ne wrote. An sorts of coneges every year do ones to me, sait water, fresh water and Dige-water coneges, and I mave nau to gaze on some or the most gou-awius semale mugs in uns pload the narrow land!

"I know now wny there are so many pretty gais in New Yorkwhat else can they do? \* \* \* Let me see the worst! But as I allus say, if I gon't think any of them are good to look upon, Ill say so.

#### Pitkin Club Meets At weekly Luncheon

Pitkin club, luncheon organizaion sponsored by the Y.W.C.A. neid its weekly meeting at 12 o clock wednesday, April 13, in the dining oom of the Maxwell Street Presbyverian church. Dr. Howard M. Morgan continued his discussion on the book, "The sermon on The Mount."

The committee appointed at the last meeting to make plans for the nay-rige made their report. The nay-ride will be at 6:30 o'clock ruesday, April 19, starting from the maxwell Street Presbyterian church A picnic supper will be served at Bryant Station on the Bryant Station pike. Each person will be charged twenty-five cents, and the mempers may bring guests.

#### Old Wills and Deeds Are Put on Display

A collection of old wills and deeds which have been in the possession sented recently to the Bryan Station Craig, of Grant, Boone county, Kentucky, are on display in one of the glass cases in the main lobby of the university library.

This collection is a part of the

library of the local chapter of the organization, which, through the interests of Mrs. Frank McFarland nd Mrs P R Howard the chapter, has been moved to the ibrary building.
Included in the collection is a

land grant presented by Beverly Randolph, governor of Virginia, to Edmund Logwood in 1787, accom-This statement has been absolutely panied by a copy of the survey and Mrs. Howard is the author of a recent book, "Bryan Station Heroes

and Heroines".

At a certain eastern college an instructor called for note books. One efficient student purchased a tattered book from one who had successfully passed the course. A few days later, the instructor, who had

#### WANT TO GO SWIMMING?

The Y. W. C. A. is sponsoring swimming for co-eds at a Versailles pool, Monday and Thurs-day afternoons. Groups will leave the Y. W. C. A. office at 3:30 o'clock. All who desire to go should see Miss Augusta Roberts, Y. W. C. A. secretary, the day before they wish to swim. A swimming certificate from the dispensary must be presented. Transporta-tion will be provided. The charge is 25 cents.

IT'S NOT SO

"People think of the Olympic

Bill Henry, famed sports writer and expert, for twenty years a leading correspondent on assignments to every part of the globe, now sports technical director of the Olympic Games, was telling us of

"They are far more than Besides including an international contest in almost every field of sport with several score nations represented they are in themselves a great gesture of international fellowship and a tradition rooted in antiquity.

"This." and the athletically built probably be the only time in the ives of persons now living that the 6-2, 6-4. games will be held in America."

OLYMPIA

These games had a deep symbolin moss-covered antiquity. It is a matter of historical fact that down in ancient Greece great Roger battles were called off when the 6-1. moon reached a certain position in the heavens during the summer sol-stice. The homicide squads on 6-2. ooth sides of the battlefield would then adjourn and tramp off to Olympia on the west coast of reece to hold the games.

In truth, they were not games but athletic rites of purification dedicated to Zeus, invisible ruler of neaven and earth.

The serious business over, and the victors crowned with the proper herb, the athletes would return to the horse-play on the battlefield.

DEATH AND REVIVAL Although the Greeks had a word or him and more, the Roman em-Theodosius finished both Greek and games in the year 394

And that was for nearly fifteen centuries until the year 1892 In that year the athletically-minded Freshman, Baron Pierre de Coubertin, then a youth of seventeen, proposed the revival of the games before the French Sports Union. His dream was realized at Athens four years later—the which once beheld the glory that was Greece in the days of the witnessing the first modern edition of the ancient

Prof. James W. Martin, director of the bureau of business research of the university, has announced publication of a study dealing with the gross sales tax in Kentucky, written by W. A. Tolman of the bureau staff. One of the national journals has previously begun publication of the work in serial form, and the director of the bureau expresses pleasure in offering the work to the public.

As a background for the analysis of the Kentucky gross sales tax law, Mr. Tolman has included in his report a synopsis of the status of sales taxes in 18 foreign countries and in the eight states in the United States which utilize this revenue The revenues colraising device. lected and the comparative importance of the sales tax are shown each of these governmental

units. dealing with the Kentucky situation the report includes a history of the Kentucky gross retail sales tax; and analysis of its operation and effects upon different merchants and classes of merchants; study of the relationship of the tax to the general tax system of the state; a history of litigation concerning the act; and a critical description of the organization for ad-ministering the law. Among other things brought out in the detailed study of the situation is the fact that the graduated rates tax law conform in some measure to the taxable capacity of the different classes of merchants. While Mr. Tolman has no examination of statistics of retail practice a certain measure of justification for the Kentucky plan which imposes higher rates on lar-ger than on smaller merchants.

#### College Students Use **But Very Few Words**

"The record low standard of language," says Dr. Rufus von Klein-Smid, president of the University of Southern California, "has been reached on the college campus." In a recent adress, Dr. von Klein Smid said that of the 500 to 600 words with which common laborers are presumed to be endowed, about half make up the college freshman's vocabulary. "The word 'swell' alone," he said, "is used to describe 4972
